

PS4 Use Instructions and Community Guidelines

Hey there! It looks like you're trying to use the Next House PS4! Maybe I can help with that!

Follow these steps to get the best PS4 experience:

1) After making sure the TFL TV area space is available, go ask the desk staff to check out your desired amount of controllers. (1-4).

2) In the TFL TV area, go ahead and turn on the TV with the power button on the right side, and turn on the PS4, which can be done with the power button somewhat hidden on the left side.

2a) If no image appears on the TV, check the sound system management box, and try pushing the "GAME" option on the front. If this does not work, ensure that there is an HDMI cable running from PS4 to the "GAME" input in the back of the box, and another HDMI running from "HDMI Output" to the TV.

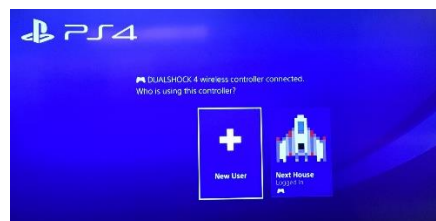

3) At this point, the PS4 should be on and you should be able to see the home screen which will list various games we own, and a library at the end on the right. Try turning on the controller by holding down the middle Playstation button. If it does not turn on or does not connect to the PS4, use the PS USB cable to manually connect the controller to the PS4. After it connects/charges, it is okay to disconnect the controller.

4) If you are only using one controller, it should automatically sign in to the NEXT-HOUSE account, and you are all set to select a game and start playing. If you have 2-4 controllers, you will need to set up a temporary guest account for each. To do this:

- Press the PS button on the new controller (plug in through USB if necessary)
- You will be prompted to pick a user. Select “New User”.

- When asked to “Create a user” or “Play as a Guest”, select “Play as a Guest”.

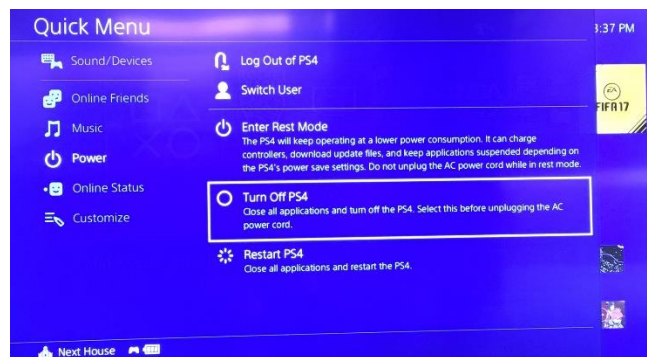

- When asked to “Sign into PSN”, select “Do Not Sign In”.

- And you should be all set for another controller! If using 3-4, just repeat the process with the other controllers.

5) Enjoy your gaming! Make sure to respect our community guidelines if your game involves online play.

6) Once you are done with your game (and you are fairly confident data has been saved), to finish playing, press and hold the PS button on a controller, and then select Power>Turn Off PS4.

7) If you used the USB cord, wrap it up and place on the PS4. Turn off the TV with the button on the side. And **MAKE SURE TO RETURN CONTROLLERS TO DESK.** Thank you!

Community Guidelines

We don't have a mic for use, but please, just be sure:

- Don't be intentionally rude.
- Don't harrass other players.
- Do not threaten other players.
- Don't post racist, sexist, or homophobic comments.
- Avoid viewing blatantly inappropriate content.

Since this is a shared, communal PS4, remember:

- Don't add your personal friends or players you just met (read: don't add any friends).
- Do not share personal and private information.
- Avoid revealing too much information about Next House, besides our PS4 username.
- Do not add your personal account to the list of users.
- Do not mess with any settings that may prevent other users from using the PS4.
